On August 3, 2017, Sheriff Mark Garber graduated from the Senior Management Institute for Police held by the Police Executive Research Forum. The intensive three week course was held in Boston Massachusetts and was filled with eighty four law enforcement executives from around the nation.

"The Senior Management Institute for Police (SMIP) is a program of the Police Executive Research Forum that provides senior police executives with intensive training in the latest management concepts and practices used in business and government, as well as discussions of the most challenging issues facing law enforcement executives today. During the demanding three-week course, SMIP brings together a faculty from top universities, successful law enforcement chief executives, and subject matter experts from the private sector. It is designed for mid-to upper-level police executives who ultimately will lead police agencies throughout the United States and other participating countries. SMIP's curriculum addresses the issues that demand the attention of today's forward-thinking law enforcement leaders." Police Executive Research Forum
